

Congratulations and thanks for your purchase!

We have tried to make the assembly instructions as clear and concise as possible so you can get on with enjoying your tent quickly and with minimal fuss.

We've also included some tips on how to prolong the life of your tent – if you follow this advice, you will be able to enjoy your tent for years to come!

Contents:

- 1 rain fly
- 1 inner tent
- 6 fiberglass poles
- 56 tent stakes
- 20 guy ropes
- 1 repair kit

Tent Assembly Instructions: SARENGO

1. Remove contents of the tent bag
2. Carefully assemble tent poles – do not let the shock cords snap the poles together
3. Unfold the inner tent and the rain fly
4. Insert each color coded tent pole into the corresponding color coded pole sleeve
5. Insert the pins found at the bottom corners of the inner tent into both ends of each pole
6. Clip the corners of the inner tent to the poles and tie the crossed poles together.
7. Stake down the inner tent using the rings and webbing loops
8. Lay the rain fly over the top of the inner tent
9. Clip the rain fly into the buckles at the bottom edges of the inner tent and tighten until the rain fly is taught
10. Take the assembled steel poles and pull the zippers of each doors of the tent
11. Erect the steel poles to lift doors through eyelets of doors
12. Go on this action till are the doors are lifted up forming sunshades
13. Stake down the rain fly using the rings, webbing loops and guy ropes – adjust the tension of the guy ropes by sliding the black adjusters along the guy ropes

Caring for your tent:

1. Keep it clean: Don't set up your tent in the mud, avoid putting muddy clothing and gear in the sleeping compartments as sand and dirt can scratch the water proof coating and damage zippers
2. UV light can accelerate fabric degradation. Therefore, set up your tent in the shade when possible and use the rain fly to protect the inner tent
3. To prolong the life of your tent floor, use a separate sheet of PE fabric underneath the tent to protect against abrasion
4. When packing up, shake out dirt and sand as much as possible
5. At home, clean your tent with a damp cloth, never use harsh cleaning chemicals, and air dry
6. When storing, allow the tent to sit loosely to prevent creases
