Tent Assembly Instructions

ZULU 2

Congratulations and thanks for your purchase! This booklet will tell you everything you need to properly assemble your tent and maintain it.

Follow these instructions carefully and you'll enjoy many years of use – please note that this product is intended for mild, 3 season, family camping use and not for extreme conditions of weather and use

1

Carrying bag X 1 Fly X 1 Repair kit X 1

Long PP Webbing X 2 Steel anchor X 8

Assemble the poles as showed in the 2 following sketches. "G" stands for green and "W" stands for white poles respectively.

2

a) Lay the rain fly on the ground as flat as possible.
 b) Insert the assembled poles through the fly sleeve. Long pole to the left (blue coded) and short pole to the right (green coded) pole sleeves respectively.
 c) Insert the 4 ends of each assembled pole into the pockets of the fly, located at each 4 corners.

3

a) Stake the corners by using the plastic anchor.
 b) Tie the pp webbing as showed in the sketch.

4

Stake down the pp webbing.

CARING FOR YOUR TENT:

- Keep it clean: Don't set up your tent in the mud, avoid putting muddy clothing and gear in the sleeping compartments as sand and dirt can scratch the water proof coating and damage zippers

Tent Assembly Instructions

ZULU 2

- UV light can accelerate fabric degradation. Therefore, set up your tent in the shade when possible and use the rain fly to protect the inner tent
- To prolong the life of your tent floor, we recommend the use of a tent footprint or separate sheet of PE (tarpaulin) fabric underneath the tent floor to protect against abrasion
- When packing up, shake out dirt and sand as much as possible
- At home, clean your tent with a damp cloth, never use harsh cleaning chemicals, and air dry
- When storing, allow the tent to sit loosely to prevent creases
